Let's Start!

Let's explore the fascinating world of kites!

Learning Outcome

Describe routines and regular activities in a wider range of social and work contexts.

Ask your partner:

- Do you enjoy flying a kite?
- How do you describe the activity of flying a kite? Peaceful? Beautiful? Boring?

Can Do Statements

- I can talk about free time activities.
- I can discuss experiences I've had or haven't had.
- I can talk about how something happens or how someone behaves.

Let's Explore!

Sally writes an article about flying kites ... including **kitesurfing*** and **kite landboarding****.

* "Kitesurfing" is the activity of flying a kite when you are on water.

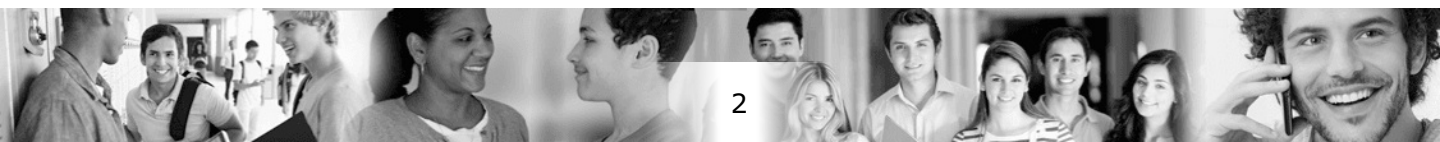

** In "Kite landboarding", the kite pulls you across the ground on a board.

Instructions: Read the text aloud.

From the beginning of human history, people have been fascinated by the ability of birds to fly beautifully, to soar high, and free themselves of the earth's gravity. Before we developed modern aviation and turned flying into an everyday event of modern life, people thoughtfully expressed their desire by inventing "paper birds" – also known as kites. Basically, a kite is a piece of thin paper or plastic which covers a frame of light wood or aluminum. They could be sent into the sky and brought back to earth by a string a person held and controlled.

Historians believed that the first kites were built in China about 3,000 years ago, using materials such as bamboo and silk. They served no practical purpose. Throughout the years, as the popularity of kites spread rapidly, they have become more widely known as children's toys. Flying kites has developed into a popular leisure activity. Kites have been used in activities such as kitesurfing and kite landboarding.

Let's Practice!

Do you agree that kites are fascinating?

Instructions: Read the text on page 2 again. Select all the correct answers.

1. Kites are made of:
a) String b) Paper or plastic c) Metal
2. Another word for a kite is:
a) Leisure activity b) Modern aviation c) Paper bird
3. The string is attached to:
a) A frame b) A piece of paper c) A piece of silk

Let's Practice!

Sally talks about how kites developed.

Instructions: Proofread the sentences. Cross out the incorrect words in every sentence. Write the correct forms above to complete the sentence.

1. From the beginning of human history, people have been fascinated by the ability of birds to fly beautiful.
2. People thoughtful expressed their desire by inventing "paper birds" – also known as kites.
3. Basic, a kite is a piece of thin paper or plastic which covers a frame of light wood or aluminum.
4. As the popularity of kites spread rapidly, they have became more widely known as children's toys.

Extension Activity

Create a collage (piece of art combining different images) of different kinds of kites.

Instructions: Complete the following steps. Fill in the Self-Assessment.

- Find 15 - 20 images of different kites. Go online or find them in printed material.
- Print or cut out the images. Create a collage with the images.
- Choose 3 kites you like the most.
- Write 3 sentences describing your favorite kites.
- Read your sentences to a partner.

Self-Assessment

Yes

No

I create a collage of images of kites.

☐
☐

I write sentences describing 3 kites.

☐
☐

I read the sentences to a partner.

☐
☐

Target Words

- **to soar** (verb): to fly high in the sky
e.g. People have long been fascinated by the ability of birds to soar high.
- **kite** (noun): a piece of material, usually shaped like a diamond, that is attached to a string
e.g. Kites could be sent into the sky and brought back to earth by a string a person held and controlled.
- **string** (noun): a long, thin cord used to attach two things
e.g. They could be sent into the sky and brought back to earth by a string a person held and controlled.
- **frame** (noun): a structure that goes around something and supports it, like a picture or a kite
e.g. A kite is a piece of thin paper or plastic which covers a frame of light wood or aluminum.
- **basically** (adverb): generally; for the most part
e.g. Basically, a kite is a piece of thin paper or plastic which covers a frame of light wood or aluminum.
- **toy** (noun): an object used for play
e.g. Kites have become more widely known as children's toys.
- **leisure activity** (noun): something you do in your free time
e.g. Kites have become a popular leisure activity.

Learning Points

Present Perfect

You use the Present Perfect tense to talk about a finished action or event. There is a connection between what happened in the past and now.

You use the Simple Past tense to talk about a finished action or event. There is no connection to the present.

You use **subject** + **have/has** + **the past participle** of the verb in affirmative Present Perfect sentences.

Remember when speaking, you can use the contracted form like *I've*.

You use **have/has** + **subject** + **the past participle** of the verb in interrogative Present Perfect sentences.

Form			
Affirmative	Kites	have	been ...
Interrogative	Have	kites	been ... ?

Examples:

- *Kites have become more widely known as children's toys.*
- *They have been used in activities such as kitesurfing and kite landboarding.*

Learning Points

Adverbs of Manner

You use adverbs of manner to describe how something is done.

Example:

She walked slowly.

How did she walk? Slowly.

Many adverbs are formed by adding -ly to an adjective:

Examples:

sad - sadly

curious - curiously

You take out the letter -y and add -ily to adjectives ending in -y.

Example:

angry - angrily

The adjectives **fast**, **hard**, **well** and **straight** are exceptions. They do not change when they become adverbs.

Some adverbs, like *basically* or *generally*, are often placed at the beginning of the sentence. You use a comma after the adverb.

Adjective	Adverb
beautiful	beautifully
basic	basically
rapid	rapidly
primary	primarily
thoughtful	thoughtfully

Examples:

- *From the beginning of human history, people have been fascinated by the ability of birds to fly beautifully.*
- *Basically, a kite is a piece of thin paper or plastic which covers a frame of light wood or aluminum.*
